# Static & Wheeled Spill Kits

Wheeled Locker

Wheeled Drop Front

Lid Lock

Brake

## APPLICATION

- Suitable for workshops, warehouses, maintenance and manufacturing facilities to respond efficiently and effectively to large spills of oils, chemicals and hazardous liquids

## FEATURES & BENEFITS

- Supplied as a complete kit
- Suitable for internal and external locations
- Absorbents are manufactured from high quality meltblown polypropylene
- Suitable for everyday workplace liquid spills and leaks
- Provides a quick response to any spills
- Available in maintenance, oil and fuel and chemical versions
- 1200 litre drop front models facilitate easy access to the absorbent products for fast and effective deployment
- Fully compliant with BS7959 and ISO 9001:2008 standards
