

Absorbent Rolls

spilkleen

MAINTENANCE

Grey in colour, suitable for absorbing most types of industrial spills including both oil and water based liquids including solvents, coolants and mild chemicals. Recommended for internal use.

OIL & FUEL

White or blue in colour, ideal for where the absorption of oil based liquids such as fuels, lubricants and other hydrocarbon based products is required and for the selective recovery of oil from water. Recommended for external use.

CHEMICAL

Yellow in colour, designed to absorb aggressive fluids including acids and alkalis. Recommended for internal use.

MELTBLOWN

APPLICATION

- Designed for the containment of larger spills

FEATURES & BENEFITS

- Manufactured from a single layer of meltblown absorbent
- Bonded and dimpled for additional strength where indicated
- Perforated down their entire length and width to minimise waste where indicated
- Different absorbency rates to suit customers requirements
- Reliable performance

HSE RECOMMENDATION ON CHEMICAL SPILLS

- Liquid spills involving hazardous materials should first be contained to prevent spread of the material to other areas. Once the hazardous material has been contained the material should be neutralised to render it safe. Acids and alkalis should be neutralised with appropriate neutralising agents. Please see pages 96-97.
